

SOLAR PV OPERATIONS TRAINING

Learning NERC and SCADA fundamentals!

Take a deep dive into operator fundamentals as they pertain to Supervisory Control and Data Acquisition (SCADA) systems in this knowledge-packed, two-day training.

The NERC and SCADA fundamentals you'll learn are applicable to the electrical grid and any SCADA system platform (hardware/software).

Pricing

- \$1,000 per student
- \$800 per student in groups 4+
